

MEMORANDUM - DRAFT

To: City Manager, Honorable Mayor, Assistant Mayor, and City Council

From: Gina Gavan, Director of Planning & Development

Date: August 26, 2026

RE: Business Spotlight Presentation – NH Business of the Year 2026

Drew Matter is the CEO and President of Mikros Technologies in Claremont, New Hampshire, where he has spent nearly a decade driving innovation in high-performance liquid cooling for next-generation computing and AI. Since joining the company in 2017, Drew has set Mikros Technologies strategic direction, including leading its acquisition by Jabil, a Florida-based global manufacturing company. This milestone has enabled significant expansion of operations in Claremont over the last two years.

Under Drew's leadership, the Mikros Technologies team continues to grow through increased hiring of high-integrity individuals with advanced manufacturing expertise and strategic collaborations with leading technology brands. The company and its employees solve complex problems for the industry by designing and manufacturing highly efficient, scalable thermal management solutions that enhance data center performance, reliability, and sustainability.

Drew holds engineering degrees from Dartmouth College and Georgia Tech and leads with a people-first mindset, fostering a culture that prioritizes professional growth, strong benefits, and a genuine commitment to work-life balance.

ABOUT THE COMPANY:

Mikros Technologies has been selected as New Hampshire's 2026 Business of the Year. The company is celebrating 35 years of business in New Hampshire, with two advanced manufacturing locations in Claremont. The company was acquired by Jabil, a global leader in design, manufacturing and supply chain solutions. This acquisition scales Mikros Technologies' reliability, and manufacturing to a global market, offering their cooling technologies, and innovative performance solutions around the world.

At Mikros Technologies, we tackle the most complex thermal management challenges for industry leaders and their customers. By drawing on deep expertise in engineering, supply chain management, and advanced manufacturing, we deliver innovative, thin-profiled designs that boost electronic performance, enhance reliability, and maximize energy efficiency. Additionally, our custom solutions extend the life of devices and systems while driving progress in high-performance computing, artificial intelligence, electric vehicle charging, semiconductor testing, renewable energy, lasers, optics, and beyond. When you partner with Mikros Technologies, you turn your toughest thermal management challenges into sustainable, high-impact advantages. www.mikrostechnologies.com

ABOUT JABIL:

At Jabil (NYSE: JBL), we are proud to be a trusted partner for the world's top brands, offering comprehensive engineering, manufacturing, and supply chain solutions. With over 50 years of experience across various industries and a vast network of more than 100 sites worldwide, Jabil combines global reach with local expertise to deliver both scalable and customized solutions. Our commitment extends beyond business success as we strive to build sustainable processes that minimize environmental impact and foster vibrant and diverse communities around the globe.
