

Planning for Housing in Plymouth

The Town of Plymouth is updating its Master Plan by adding a new section devoted exclusively to housing. Building on Plymouth's in-depth look at its land use regulations in 2023-2024, the Planning Board will focus on housing needs, affordability, opportunities, and locations suitable for a range of housing types in a nine-month community-wide planning process. The new Housing chapter may serve as the springboard for an overall update of the 2018 Master Plan. Here is the overall project schedule and community engagement plan. Check the Planning Department web page for updates!
