FROM: North Haverhill Precinct Commissioners

RE: Expansion Tank Replacement

Recently, there have been a few North Haverhill Water & Light customers who have had their expansion tank replaced by a local plumber and then asked for the precinct to reimburse the cost of the expansion tank. Please note that if a customer requires a new expansion tank, the Precinct has a supply available at no cost to the customer. We simply ask that the customer hire a licensed plumber to install the expansion tank and bear that cost. The following language is printed on quarterly water bills:

"If your expansion tank fails, please contact us at 603-989-3333 or by email at office@northhaverhill.com. We can provide a free expansion tank from our stock – contact us for details."

Beginning in June of 2026, North Haverhill Water & Light District will be replacing all water meters in the District with new Kamstrup meters. When the meters are installed, a new expansion tank will be provided at no cost to the customer. We will not be installing the expansion tank; it will be the responsibility of the customer to hire a licensed plumber to do the installation.

If you should have any questions, please reach out to us by telephone or email. Thank you.
